

DLC Mill End Mills

DLC Mill for Aluminum

Dry Milling of Aluminum

DLC (Diamond Like Carbon) is an Amorphous Material with High Hardness and Low Friction and has Similar Characteristics to Diamond Coating

Excellent Chip Evacuation

Dry Machining and Extra Long Tool Life is Achieved with DLC Coating

Materials

Aluminum 1060, 6061, Aluminum Alloys 4032, 5052, 7075, and Copper Alloys.

Series

L6231HD 1/8 to 1", 2 Flute, HSS-Co

L9330 1.5 to 20mm, 2 Flute, Carbide
