

Sealed Ball Screw Support Bearings

NACHI

TAB-2LR Series

- Heavy-duty LR Seal
- High-performance Grease
- Compatible Dimensions with Standard Bearing

Sealed for Life - Support Bearing

Sealed for Life

Sealing keeps the contamination out and prevents the leakage of the prepacked high performance grease.

Therefore allows you to have
a maintenance free and long life bearing.

Cost & Energy Savings

Minimizes power loss due to low and stable starting and running torque.

Pre-set Preload

Pre-set preloading conditions provides for *ease of assembly* by eliminating complex assembly adjustment.

Low Noise & Long Life

Reduced noise design due to polyamide cage and high-performance grease ensures *smooth quiet operation and long bearing life.*
